

Navigate Disputes Solution

A comprehensive solution for monitoring and handling the entire spectrum of litigation across all laws

The challenges

Coordination with multiple teams/
consultants managing disputes across
various geographies and taxes

No comprehensive view and insights on
pending litigations across the organisation

Storage/retrieval of physical records (which
are highly relied on) for pending litigation
matters

Monitoring of payments, security, guarantees,
costs, year-end provisioning, etc., at the
organisation level

Cumbersome transition in case of change of
team/consultants

Our solution

Navigate Disputes is a comprehensive solution for monitoring and handling the entire spectrum of litigation (assessments, appeals, special investigations, writs, etc.) across all laws like tax, labour and criminal. It prepares a case itinerary of all events and also alerts users on the actions to be taken.

It is a complete workflow-based solution with an easy-to-use framework, designed to track and manage litigation across the globe. It provides a panoramic view of litigation across entities and jurisdictions, along with the mechanism to analyse valuable information, thereby offering business intelligence.

Why do clients need Navigate Disputes Solution?

Litigation monitoring

Event level (notice, reply, etc.) or issue level (ITC reversal, ineligible credit) or case or litigation level (ABC Chemicals V/s CCE). All litigation events which can be captured are easily identifiable (notice, reply, hearing, order, pleading, payment, security, refund, etc.)

Exhaustive provisioning module

Facility to compute provision for ongoing litigation to meet compliance/MIS requirements. PPR analyses can also be performed in this module

Access control mechanism

Access control mechanism gives users access to: Entity-specific access – (e.g. user to monitor litigation for 'Entity A'), region-specific access – (e.g. user to monitor litigation for 'Region A') and law specific access – (e.g. user to have 'indirect tax access')

Law agnostic

Manage litigation under various Indian and international laws

To-do/alerts

Ability to track self and team to-do's/alerts for critical events like reminder for hearing, escalation in case of non-completion of task, and high-value cases

Comprehensive repository

Multiple documents such as notice, reply/submissions, order, appeal documents, annexures, workings, etc., can be stored

Intuitive MIS reports

Various MIS reports are also available to ensure effective management of litigation, such as cases handled by counsel/consultant and their expenses, where case is pending currently, etc.

Key uses

- Ensures accuracy and time savings due to complete case history and guidance at one place
- Builds a single repository of multiple documents and their built up viz. annexures, supporting documents and drafts
- Mitigates risk of taking inconsistent positions – issue-wise insights
- Provides improved litigation strategy using data analytics and insights
- Eases collaboration with counsels/consultants
- Eliminates individual dependency
- Provides a holistic view

Value proposition

Features

To-do alerts for scheduled events viz. hearings and teams' to-do

Access can be provided to external partners/ legal consultants, etc.

Advance search functionality with features of standard and custom tags

Law and territory agnostic; usable for multiple laws and jurisdictions

Customised MIS reports and robust report generation mechanism

Comprehensive data repository for litigation proceedings, etc.

Benefits

Accuracy and time saving due to complete case history and guidance at one place

Single repository of multiple documents and their built up viz. annexures, supporting documents and drafts

Mitigates risk of taking inconsistent positions – issue-wise insights

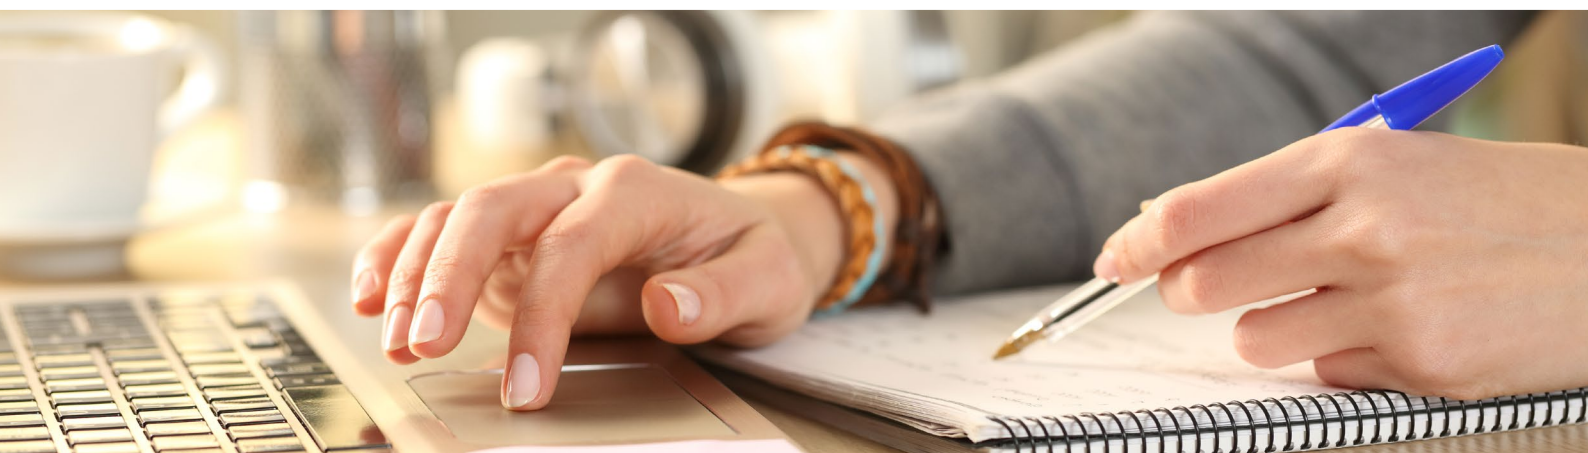

Improved litigation strategy using data analytics and insights

Easier collaboration with counsels/ consultants

Eliminates loss due to change of teams/ consultants
